- TABLE 4D: Import and Export of Fibre By All N.B. Mills During 2007 47

Introduction

The purpose of the Timber Utilization Report (TUR) is to provide reliable information on industrial fibre consumption as a basis for forest resource management planning and government decision making. It also provides information on individual mill consumption, fibre imports and exports, and sawmill residue production and consumption.

The data presented in the report summarizes information collected by the Department of Natural Resources (DNR) for the fiscal year April 1, 2007 to March 31, 2008. All pulp and paper mills, fibreboard and panel mills were sampled. Only those sawmills consuming more than 500 m^3 of roundwood were included in the survey. As a result, total roundwood consumption may be slightly higher than the survey indicates. For the purpose of this report fibreboard and panel mills will be included under the sawmill headings.

The TUR is divided into four parts as follows:

Part 1 summarizes the industrial roundwood consumption from various sources by industry type.

NOTE: Table 1D: Own Freehold, Industrial Freehold, & Federal Lands Roundwood Consumed (m^3) in N.B. , will no longer be included in the TUR. Volumes sourced from "Own Freehold Lands" are now included in the "Industrial Freehold" volume in Table 1A. Volumes sourced from "Own Freehold Lands" by individual mills are indicated under the "Industrial Freehold" heading as "OFH" in Table 2 of this report.

Part 2 lists individual mill consumption by source and species.

Part 3 lists those pulp and paper mills consuming chips and other residue, as well as, individual sawmills producing chips and residue.

Part 4 lists all mills importing and exporting roundwood, chips and other residue by industry type.

All values presented in the following tables are in cubic metres except for biomass, which is reported in metric tonnes.

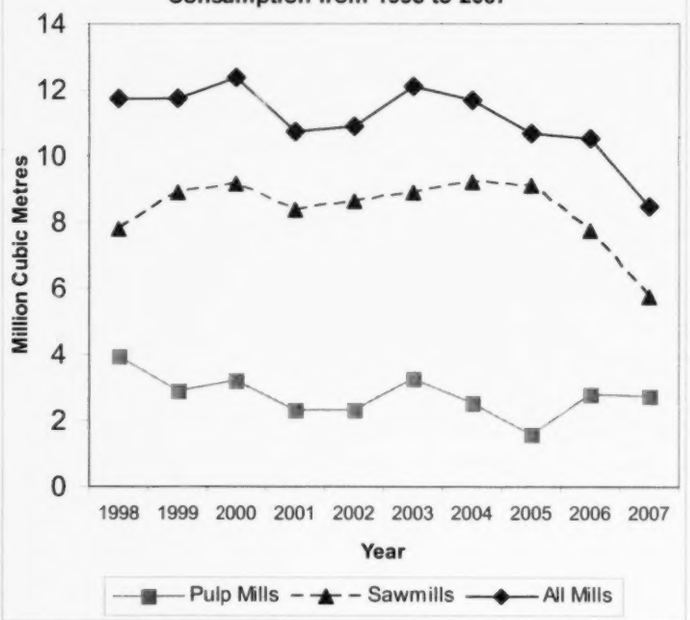
Executive Summary

The number of mills represented in the TUR has decreased from 69 mills in 2006, to 64 mills in 2007. Reports were not received from 6 mills, however, the information is included in the report using estimates based on deliveries taken from DNR's electronic scale reporting system (E-scale) and reports from the New Brunswick Forest Products Commission. Table A (right) shows the representation of pulp & paper mills, sawmills, fibreboard and panel mills from 2005 to 2007.

Table A. Mill Representation by Type.

Year	Mill Type			
	Pulp & Paper	Sawmills	Fibreboard	Panel
2005	9	64	1	2
2006	8	58	1	2
2007	8	54	1	1

Figure 1. Pulp Mill & Sawmill Roundwood Consumption from 1998 to 2007



Based on the information received from the above mills, overall roundwood consumption decreased in 2007 by approximately 19.5% from the previous year. New Brunswick sawmills reduced consumption of roundwood by 2 million cubic metres or 25.9% as a result of permanent mill closures, temporary downtime, and reduced shifts. Figure 1 (left) shows the steady decline in roundwood consumption by pulp mills and sawmills since 2003.

The reduction in demand for roundwood is affecting all land ownerships in New Brunswick, as well as the volume of wood that is imported. Table B (right) indicates how each land base is being impacted.

Table B. Effects of Overall Reduction in Roundwood Consumption on Individual Land Ownerships from the Previous Year (2006).

Ownership	%	m^3
Crown	-16.4	- 810,798
Industrial Freehold	-9.3	- 237,615
Marketing Boards	-39.8	- 569,748
Imports	-27.2	- 431,230

Overall chip consumption by pulp mills decreased by 944,109 m^3 or 22.2% from 2006. This reduction can be attributed to the closing of 2 pulp mills during the 2007 fiscal year, and a sawmill chip supply that has declined by 828,205 m^3 or 22.8% since 2006.

Abbreviations, Acronyms & Descriptions of Fibre Sources

Marketing Boards	
CVC	Carleton-Victoria
MAD	Madawaska
NSH	NorthShore
NTH	Northumberland
SENB	SouthEastern New Brunswick
SNB	Southern New Brunswick
YSC	York-Sunbury-Charlotte
Federal Lands	
GMIA	Greater Moncton International Airport
BGT	Base Gagetown
CSC	Correctional Service of Canada
Reserve	First Nation Reserves

Province/State	
MA	Massachusetts
ME	Maine
NB	New Brunswick
NH	New Hampshire

9	Carleton-Restigouche-Tobique

Description of Roundwood and Fibre Sources

Marketing Board Lands – Roundwood volumes harvested and consumed that originated from private land in New Brunswick is reported under the appropriate board.

Federal Lands – Roundwood volumes harvested and consumed that originated from lands owned by the federal government of Canada.

Industrial Freehold Lands – Roundwood volumes harvested and consumed that originated from lands owned by companies that operate a processing facility in New Brunswick.

Crown Licenses – Roundwood volumes harvested and consumed that originated from Crown land in New Brunswick is reported under the appropriate Crown license.

Import Sources – Roundwood harvested outside the province and consumed by facilities in New Brunswick.

Residue Volumes – Fibre that is produced by another facility in the process of consuming roundwood. Only fibre that is used in the production of an end product is included in this column. Residue volume can include chips, sawdust, trim ends and/or shavings. Fibre that is used as biomass or hog fuel is not included.

PRODUCT LIST

April 01, 2007 to March 31, 2008

Roundwood	Roundwood	Mill Residue, Chips and Other
SOFTWOOD	**HARDWOOD**	Softwood Chips (SWC)
Spruce, Fir, Jack Pine Veneer (SPFV)	Hardwood Veneer (HWV)	Hardwood Chips (HWC)
Spruce, Fir, Jack Pine Sawlog (SPFL)	Poplar Veneer (PV)	Planer Shavings (Shav.)
Spruce, Fir, Jack Pine Studwood (SPFS)	Hardwood Sawlogs (HWL)	Softwood Sawdust (SWSD)
Spruce, Fir, Jack Pine Lathwood (LATH)	Hardwood Pallet (HWPL)	Hardwood Sawdust (HWSD)
Spruce, Fir, Jack Pine Pulpwood (SPFP)	Poplar Sawlogs (PL)	Biomass/Hog Fuel (HWGF)
Spruce, Fir, Jack Pine Treelength (SPFTL)	Hardwood Pulpwood (HWP)	Sawdust, Shavings, etc. (Other)
White Pine Veneer (WPV)	Poplar Pulpwood (PP)	
White Pine Logs (WPL)	Hardwood Spoolwood (SPOOL)	
White Pine Pulp (WPP)	Hardwood Fuelwood (HWF)	
White & Red Pine Sawlogs (WRPL)	Hardwood Ties (HWTi)	
White & Red Pine Pulpwood (WRPP)	Poplar Ties (PopT)	
White Pine Stud (WPS)	Hardwood Full Tree Chips (HWFC)	
Red Pine Pulpwood (RPP)		
Red Pine Poles (RPPO)		
Red Pine Stud (RPS)		
Red Pine Treelength (RPTL)		
Jack Pine Poles (JPPO)		
Cedar Poles (CEPO)		
Cedar Sawlogs (CEL)		
Cedar Studwood (CES)		
Cedar Treelength (CEDTL)		
Cedar Pulpwood (CEP)		
Cedar Fencing (CEF)
